CAT.A

026 COTONE CAIRO - COTTON CAIRO

Composizione/Composition: 91% CO, 9% PL. Larghezza/Width: 140 cm. Peso/Weight: 690gr. Abrasione/Abrasion: 25.000 Martindale

	002 BIANCO WHITE		004 AVORIO IVORY		011 SABBIA SAND		016 TORTORA TAUPE
	024 ROSA PINK		019 GIALLO OCRA OCHRE YELLOW		039 ROSSO RED		040 BORDEAUX BURGUNDY
	062 VERDE CHIARO LIGHT GREEN		061 AZZURRO INDACO INDIGO BLUE		072 BLU BLUE		041 GRIGIO GHIACCIO ICE GREY
	045 GRIGIO CHIARO LIGHT GREY		048 GRIGIO AZZURRO BLUE GREY		050 GRIGIO SCURO DARK GREY		091 NERO BLACK

I colori sono indicativi. Non è possibile garantire uniformità di tono nella tintura dei lotti di tessuto. Resta inteso che lievi differenze di colore verranno accettate al momento dell'ordine.

The colors are just indicative. Actually a steady tone of lots cannot be guaranteed. It remains understood that any slight colour difference will be accepted in case an order is placed.

I colori sono indicativi. Non è possibile garantire uniformità di tono nella tintura dei lotti di tessuto. Resta inteso che lievi differenze di colore verranno accettate al momento dell'ordine.

The colors are just indicative. Actually a steady tone of lots cannot be guaranteed. It remains understood that any slight colour difference will be accepted in case an order is placed.

I colori sono indicativi. Non è possibile garantire uniformità di tono nella tintura dei lotti di tessuto. Resta inteso che lievi differenze di colore verranno accettate al momento dell'ordine.

*The colors are just indicative. Actually a steady tone of lots cannot be guaranteed. It remains understood that any slight colour difference will be accepted in case an order is placed.*

I colori sono indicativi. Non è possibile garantire uniformità di tono nella tintura dei lotti di tessuto. Resta inteso che lievi differenze di colore verranno accettate al momento dell'ordine.

The colors are just indicative. Actually a steady tone of lots cannot be guaranteed. It remains understood that any slight colour difference will be accepted in case an order is placed.

I colori sono indicativi. Non è possibile garantire uniformità di tono nella tintura dei lotti di tessuto. Resta inteso che lievi differenze di colore verranno accettate al momento dell'ordine.

*The colors are just indicative. Actually a steady tone of lots cannot be guaranteed. It remains understood that any slight colour difference will be accepted in case an order is placed.*

I colori sono indicativi. Non è possibile garantire uniformità di tono nella tintura dei lotti di tessuto. Resta inteso che lievi differenze di colore verranno accettate al momento dell'ordine.

*The colors are just indicative. Actually a steady tone of lots cannot be guaranteed. It remains understood that any slight colour difference will be accepted in case an order is placed.*

## COMPOSITI/COMPOSITES

Nella scienza dei materiali un “materiale composito” è un materiale eterogeneo, cioè costituito da due o più fasi con proprietà fisiche differenti le cui proprietà finali sono significativamente migliori di quelle delle fasi che lo costituiscono sia dal punto di vista meccanico che estetico. I primi materiali compositi furono i mattoni, il calcestruzzo ed il compensato sino ad arrivare ai nostri giorni con i recenti compositi a matrice polimerica, metallica, ceramica ed i compositi strutturati come i pannelli a sandwich.

*In the science of materials, a “composite material” is heterogeneous, consisting, that is, of two or more phases with different physical properties, the final properties of which are significantly better than those of the phases that comprise it, from both the mechanical and the aesthetic perspectives.*

*The first composite materials were bricks, concrete and plywood; then, if we move on to more recent times, we have the newer composites, which are polymer-, metal- and ceramic-based and structured composites such as sandwich panels.*

### FINITURA CEMENTO/CEMENT FINISH

Impasto realizzato con cemento, additivi-resine, sabbie di varie granulometrie e fibre di vetro. Il composto ottenuto permette di ridurre il peso e mantenere la durabilità del manufatto. A stagionatura avvenuta gli elementi vengono trattati con prodotti protettivi ed impermeabili. Anche in un singolo pezzo la struttura, la tonalità e la porosità non saranno mai completamente uniformi, piccole formazioni di pori e bande, minime differenze di colore o leggere fenditure fanno parte delle caratteristiche naturali del materiale e contribuiscono al pregio ed al valore individuale di ogni singolo pezzo.

*A mix made with cement, additives-resins, sands with various particle sizes and glass fibres. The compound obtained enables the weight to be reduced and the durability of the product to be maintained. When seasoning is completed, the elements are treated with protective and impermeable products. Even in a single piece, the structure, colour tone and porosity will never be completely uniform; small formations of pores and bands, minor differences in colour and slight fissures are all part of the natural characteristics of the material and contribute to the quality and value of each individual piece.*

---

### FINITURA ARGILLA/CLAY FINISH

Impasto realizzato con terre colorate in pasta additate con cariche minerali a granulometria controllata e legante polimerico in dispersione acquosa, finitura superficiale matt con protettivo impermeabilizzante. Anche in un singolo pezzo la struttura, la tonalità e la porosità non saranno mai completamente uniformi, piccole formazioni di pori e bande, minime differenze di colore o leggere fenditure fanno parte delle caratteristiche naturali del materiale e contribuiscono al pregio ed al valore individuale di ogni singolo pezzo.

*A mix made with coloured earth in paste form, added to which are mineral fillers with controlled granulometry and polymer binder in aqueous dispersion, matt surface finish with protective waterproofing. Even in a single piece, the structure, colour tone and porosity will never be completely uniform; small formations of pores and bands, minor differences in colour and slight fissures are all part of the natural characteristics of the material and contribute to the quality and value of each individual piece.*

## COMPOSITI/COMPOSITES

### CRISTALPLANT<sup>®</sup> /CRISTALPLANT<sup>®</sup>

Materiale brevettato composto per la maggior parte da cariche minerali di triidrati di alluminio di elevata purezza legati da resine di origine vegetale Biobased<sup>®</sup>: l'origine della resina è ricavata dal mais. E' conosciuto per la bellezza simile alla pietra naturale dall'effetto soft touch, si presta a realizzare forme organiche senza giunti, antibatterico perché fotocatalitico.

*A patented material mostly composed of mineral fillers of high-purity aluminium trihydroxide bound by Biobased<sup>®</sup> resins of plant origin: the resin is obtained from maize and is renowned for its beauty, which is similar to natural stone with a soft touch effect, lending itself to the creation of organic forms without joints; as it is photocatalytic, it is antibacterial.*

---

### LAMINATO/LAMINATE

Materiale costituito da un cuore a base di fogli di carta Kraft impregnata con resine termoindurenti e da uno strato decorativo superficiale composto da un foglio di carta stampata impregnato con resine aminoplastiche il tutto sottoposto all'azione combinata di alta pressione ed elevate temperature. Il prodotto che si ottiene è un materiale di eccellente qualità per le sue proprietà funzionali ed estetiche, facile da pulire, garantisce un'ottima resistenza alle macchie ed agli agenti chimici ed una discreta resistenza ai graffi.

*A material consisting of a heart made of sheets of Kraft paper impregnated with thermosetting resins and a decorative surface layer composed of a sheet of printed paper impregnated with aminoplastic resins, all of which undergoes the combined action of high pressure and high temperatures. The product that is obtained is a material of excellent quality on account of its functional and aesthetic properties; it is easy to clean, guarantees excellent resistance to stains and chemical agents and fair resistance to scratching.*

---

### VETRORESINA/ FIBREGLASS

Materiale costituito da un tessuto in fibra di vetro che costituisce la parte strutturale e da resina poliestere termoindurente che lega le varie fibre consentendo di realizzare manufatti con un'elevata resistenza meccanica, chimica ed alla corrosione, non necessita di una particolare manutenzione. E' un materiale estremamente versatile potendo assumere qualsiasi forma dalle più morbide ed organiche a quelle più complesse ed estreme lasciando assoluta libertà alla creatività.

*A material consisting of a glass fibre fabric that forms the structural part and thermosetting polyester resin, which bonds together the various fibres enabling products to be made with a high mechanical and chemical resistance and to corrosion; it does not require any particular maintenance. It is an extremely versatile material and is able to take on any form, from the softest and most organic to the more complex and extreme, leaving total freedom for creativity.*

## COMPOSITI/COMPOSITES

### MDF LACCATO/LACQUERED MDF

“Medium-density fibreboard” materiale proveniente dalla lavorazione degli scarti del legno preferibilmente di conifera. Attraverso la macinazione degli scarti del legno si ottiene una pasta che additivata con resine viene pressata a temperatura elevata (fino a 210 °C) ottenendo un pannello compatto perfettamente liscio e privo di ondulazioni. La superficie del pannello di mdf grezzo viene “laccata” con una vernice poliestere come base di fondo ed una vernice poliuretana superficiale per un risultato coprente e omogeneo in finitura opaca o lucida. Il laccato garantisce una buona resistenza alla luce ed alle macchie grazie al film protettivo assicurato dalla vernice poliuretana.

*“Medium-density fibreboard”, a material made from processing waste wood, preferably conifers. By grinding the waste wood, a paste is obtained that, when resins are added, is pressed at very high temperatures (up to 210°C) obtaining a perfectly smooth and compact panel without undulations. The surface of the untreated MDF panel is “lacquered” with a polyester varnish as an undercoat and a surface polyurethane varnish for a covering and homogeneous result in matt or gloss finish. The lacquer guarantees good resistance to light and stains, thanks to the protective film guaranteed by the polyurethane varnish.*

## LEGNO MASSELLO/SOLID WOOD

Per legno massello si intende quella parte di legno ricavata dal tronco dell'albero, in particolare dal durame, la parte centrale di un tronco. Il legno massello "non ha difetti" e quelli che potrebbero sembrare dei difetti non sono altro che caratteristiche morfologiche del legno massello, ovvero, qualità che gli conferiscono il meritato titolo di "materiale unico ed irripetibile", parliamo di piccole crepe o fessure, nodi e variazioni di colore, caratteristiche della sua totale autenticità. Scegliere un materiale naturale comporta anche il saper accettare le piccole imperfezioni e la sensazione di vissuto che questo comporta. La superficie in legno ha una buona resistenza alla macchia ma una scarsa resistenza al graffio e, trattandosi di un materiale naturale, viene influenzata dall'esposizione alla luce nel tempo.

*Solid wood is understood to be that part of the wood that is obtained from the trunk of a tree, particularly from the duramen, the central part of a trunk. Solid wood "has no defects", indeed, what might appear to be defects are none other than the morphological characteristics of the solid wood, in other words, qualities that confer upon it the well deserved title of "unique, unrepeatable material", namely small cracks or fissures, knots and colour variations, characteristics of its total authenticity. Choosing a natural material also involves being able to accept the minor imperfections and the lived-in sensation that this involves. The wood surface has good resistance to staining but limited resistance to scratching and, being a natural material, is affected by exposure to light over time.*

## MOGANO/MAHOGANY

Il colore tipico è un rosso-bruno, le principali caratteristiche sono una elevata resistenza meccanica con una buona lavorabilità e stabilità. Il mogano è un legno pregiato e costoso da sempre utilizzato nell'ebanisteria di alta qualità e nei mobili di pregio.

*Its typical colour is reddish-brown and its main characteristics are a high mechanical resistance with good machinability and stability. Mahogany is a precious and expensive wood, long used for high-quality cabinet-making and in valuable furniture.*

---

## FRASSINO EBANIZZATO/EBANISED ASH

Il colore tipico è un biondo chiaro con leggere sfumature tendenti al verde, le principali caratteristiche sono una buona resistenza meccanica e di lavorabilità con una buona attitudine alla verniciatura grazie alla marcata venatura e porosità. Il trattamento di "ebanizzazione" del frassino consiste nel tingere il legno con dei mordenti all'acqua di colore nero con una leggera sfumatura rossastra così da riprodurre il colore dell'ebano mantenendo il "poro aperto" del legno per evidenziare la caratteristica venatura.

*Its typical colour is pale blond with light tones tending towards green, the main characteristics of which are good mechanical resistance and machinability with a good response to painting, thanks to its marked grain and porosity. The "ebanisation" treatment of ash consists of dyeing the wood with black water-based mordants with a slight reddish tone in order to reproduce the colour of ebony, maintaining the "open pores" of the wood to highlight the characteristic grain.*

## LEGNO MASSELLO/SOLID WOOD

### NOCE CANALETTO/CANALETTO WALNUT

Conosciuto anche come noce americano, è ricco di tonalità e sfumature nel tono del marrone che variano dal bruno al moka sino ad arrivare al nero, la struttura può variare dal “fiammato” al “rigato” e la combinazione del colore con la struttura crea un legno dalle trame eleganti e preziose.

*Aso known as American walnut, it is rich in the shades and tones of brown, which actually vary from mocha to darker brown, even to black; the structure may vary from “flamed” to “striped” and the combination of the colour with the structure creates a wood with elegant, precious patterns.*

---

### ROVERE FOSSILE/FOSSIL OAK

E' un “rovere di palude” ottenuto dalla scoperta e dall'estrazione di antichi tronchi di rovere immersi per molti secoli sotto il letto di fiumi o laghi, a contatto continuo con l'acqua e la terra in un ambiente anaerobico. Sotto l'influenza dell'acqua, della sabbia, della terra, e con l'influenza della pressione da queste esercitata, si sono generate reazioni chimiche che attraverso la formazione di sali minerali hanno trasformato la struttura del legno rendendolo più simile alla pietra. Il colore può variare molto con tonalità che virano dal marrone-oro al nero intenso. E' un materiale che viene dalla notte dei tempi, raro, naturale, molto prezioso, unico ed inimitabile.

*This is a “swamp oak” obtained from the discovery and extraction of ancient oak trunks that have been immersed for many centuries in the beds of rivers or lakes, in continuous contact with the water and the earth in an anaerobic environment. Under the influence of water, sand and earth, and with the effect of the pressure exerted by these, chemical reactions have been produced that, through the formation of mineral salts, have transformed the structure of the wood, making it more similar to stone. The colour may vary considerably, with tones ranging from golden brown to intense black. It is a material that has come from the depths of time; it is rare, natural, very precious, unique and inimitable.*

---

### FAGGIO/BEECH

E' il più diffuso legno utilizzato nell'arredamento, la sua durezza unita alla resistenza alla flessione, agli urti, alla compressione ed alla torsione ne fanno uno dei legni più interessanti dal punto di vista meccanico. Il colore è chiaro tendente al rosato, con tonalità che vanno dal bianco al bruno-rossastro con una punta di giallo.

*This is the most widely used wood in furnishing; its hardness, together with its resistance to bending, impact, compression and torsion, make it one of the most interesting woods from the mechanical point-of-view. Its colour is pale, tending towards pink, with tones ranging from white to reddish-brown with a hint of yellow.*

## LEGNO MASSELLO/SOLID WOOD

### ROVERE/OAK

E' la quercia uno degli alberi più presenti nei nostri boschi, di colore bruno chiaro che vira al giallo, tende a schiarire col tempo. E' un legno che si identifica facilmente in quanto ha una venatura caratteristica, lo troviamo sia "fiammato" che "rigatino" a seconda del tipo di taglio.

*Oak is one of the most common trees in our woods; pale brown in colour, turning towards yellow, it tends to become lighter in colour with time. It is a wood that is easily identified, as it has a characteristic grain. We find it both "flamed" and "striped", depending on the type of cut.*

## LEGNO TRANCIATO/*SLICED WOOD*

Per legno “tranciato” si intende il prodotto ricavato dal taglio del tronco dell’albero eseguito parallelamente al suo asse mediante l’utilizzo di “trance” o coltelli”. Si ottengono dei sottili fogli di legno dello spessore di circa 1mm. che riportano fedelmente tutte le caratteristiche di colore e struttura del legno massello. Ci sono varie modalità di tranciatura (all’ italiana, alla francese, sul largo) in funzione di come preliminarmente viene sezionato il tronco. I sottili fogli di legno di una larghezza variabile dai 10 ai 20 cm. vengono “stirati” per renderli perfettamente piani, rifilati sul lato lungo e “giuntati” tra loro a “filo” o a “colla” per ottenere un unico grande foglio di legno delle dimensioni volute. Sarà l’esperienza dell’artigiano che nella “composizione” dei fogli riuscirà a costruire un insieme esteticamente equilibrato ed armonico.

“Sliced” wood is understood to be the product obtained from cutting the tree trunk parallel to its axis using “shears” or knives”. Thin sheets of wood are obtained with a thickness of around 1mm that faithfully bear all the characteristics of colour and structure of the solid wood. There are various methods of slicing (Italian-style, French-style, broad cut) depending on how the trunk is sectioned at the preliminarily stage. The thin wooden sheets, with a width varying between 10 and 20 cm, are “stretched” to make them perfectly flat, trimmed along the long side and “sewn together” with “thread” or “glue” to obtain a single large wooden sheet of the desired dimensions. It is thanks to their own experience that in the “composition” of the sheets the artisans succeed in creating an aesthetically balanced and harmonious whole.

### MOGANO/*MAHOGANY*

Il colore tipico è un rosso-bruno.

*Its typical colour is reddish-brown.*

---

### NOCE CANALETTO/*CANALETTO WALNUT*

Il colore ha sfumature nel tono del marrone che variano dal bruno al moka sino ad arrivare al nero.

*Its colour has shades of brown, varying from mocha to darker brown, even to black.*

## LEGNO TRANCIATO/*SLICED WOOD*

### ROVERE/*OAK*

Di colore bruno chiaro che vira al giallo.

*Pale brown in colour, turning towards yellow.*

---

### OLMO/*ELM*

Il colore varia dal beige chiaro sino al bruno cupo cioccolato, addirittura al rossastro.

*Its colour ranges from pale beige to dark chocolate brown, even to a reddish tone.*

---

### WENGE'/*WENGE*

Di colore bruno scuro variegato da strisce nerastre.

*Dark brown in colour with contrasting blackish stripes.*

## LEGNO TRANCIATO/*SLICED WOOD*

### BAMBOO/*BAMBOO*

Il colore è chiaro con forti tonalità di giallo, tramite il processo di "vaporazione" viene leggermente scurito fino ad ottenere un tenue colore caramello.

*Its colour is pale with strong yellow tones; by using the "steaming" process, it is slightly darkened until a soft caramel colour is obtained.*

## LEGNO PRECOMPOSTO MULTILAMINARE / *MULTILAMINAR PREFORMED WOOD*

Il tranciato "multilaminare" è costituito da molte lamine sottili anche di diverse specie legnose che, dopo essere state colorate singolarmente, vengono impaginate e assemblate così da ottenere dei veri legni masselli dai quali vengono poi ricavati i tranciati finali. Possiamo avere tranciati con struttura "fiammata" ottenuti mediante taglio del tronco eseguito tangenzialmente agli anelli del tronco o tranciati "rigati" con venature verticali ottenuto da una parte di tronco tagliato perpendicolarmente agli anelli.

*"Multilaminar" sliced wood consists of a number of thin sheets, even of different wood species, which, after being coloured individually, are paginated and assemble so as to obtain real solid woods, from which the final slices are obtained. We can have slices with a "flamed" structure, obtained by cutting the trunk tangentially to the rings of the trunk, or sliced "striped" with vertical grains obtained from a part of the trunk cut perpendicular to the rings.*

### CALEIDOLEGNO FIAMMATO BIANCO E NERO / *FLAMED WHITE BLACK CALEIDOLEGNO*

"Multilaminare" con struttura fiammata, colore di base bianco con venature nere.

*"Multilaminar" with flamed structure, basic colour white with black graining.*

---

### CALEIDOLEGNO RIGATO MARRONE / *STRIPED BROWN CALEIDOLEGNO*

"Multilaminare" con struttura rigata, colore di base beige chiaro e venature verticali marrone scuro.

*"Multilaminar" with striped structure, basic colour pale beige and vertical dark brown graining.*

## MATERIALI LAPIDEI/STONE MATERIALS

Da sempre la pietra naturale esercita un grande fascino grazie all'impatto estetico ed alla bellezza della materia stessa. Espressione di un legame con la nostra terra e la nostra cultura, la pietra naturale racchiude in sé milioni di anni di evoluzione geologica e si racconta coniugando storia, sapienza artigianale e moderna tecnologia. Le pietre naturali vantano caratteristiche estetiche inimitabili date dall'intensa espressività della texture, ricca di toni e sfumature, ciò rende ogni lastra unica e irripetibile e, a volte, anche due pezzi della stessa lastra non sono uguali. Eventuali inclusioni e differenze di venatura, colorazione e simmetrie non possono essere previste a priori e sono quindi da considerarsi caratteristica intrinseca del materiale, espressione della sua unicità e prova inconfutabile che si tratti di una pietra veramente naturale.

*Natural stone has always been considered especially charming, thanks to the aesthetic impact and beauty of the material itself. The expression of a bond with our land and our culture, natural stone contains millions of years of geological evolution and tells its story combining history, hand-crafting expertise and modern technology. Natural stones boast inimitable aesthetic characteristics, thanks to the intense expressiveness of the textures, rich in tones and shades, making every slab unique and unrepeatably; at times, even two pieces of the same slab are not identical. Any inclusions and differences in veins, coloration and symmetries cannot be predicted and are therefore to be considered as intrinsic characteristics of the material, the expression of its uniqueness and irrefutable proof that it is a truly natural stone./*

### MARMO BIANCO DI CARRARA/WHITE CARRARA MARBLE

È il marmo per antonomasia: un marmo puro e compatto, esteticamente possiamo definirlo come “un fresco manto nevoso percorso da leggere venature grigie”. Il nostro Bianco di Carrara proviene da una delle cave più rinomate situata sulle propaggini meridionali del Monte Altissimo nelle Alpi Apuane dove Michelangelo Buonarroti nel 1517 veniva ad approvvigionarsi dei marmi per realizzare i suoi capolavori.

*This is the quintessential marble: a pure and compact marble, aesthetically we could define it as “a fresh mantle of snow with light grey veins crossing it”. Our Carrara White comes from one of the most famous quarries, located on the southern slopes of Monte Altissimo in the Apuan Alps, where in 1517 Michelangelo Buonarroti came to collect his marble supplies to create his masterpieces.*

---

### MARMO MARQUIÑA/MARQUIÑA MARBLE

Il marmo Nero Marquiña è un materiale dal colore nero intenso a fondo molto compatto attraversato da venature irregolari di colore bianco o grigio chiaro, più o meno marcate con andamento diagonale, particolare che conferisce al marmo Nero Marquiña un aspetto originale e mai scontato.

*Nero Marquiña marble is a material with an intense black colour with a very compact base crossed by irregular pale white or grey coloured veins, more or less marked, running diagonally, a detail that gives Nero Marquiña marble an original and never predictable appearance.*

## MATERIALI LAPIDEI/*STONE MATERIALS*

### QUARZITE/*QUARTZITE*

La Quarzite Grigia proviene dall' India, è un materiale dal colore grigio che può presentare qualche puntino più scuro, il suo tono è complessivamente chiaro ed omogeneo.della pietra.

*Grey quartzite comes from India; it is a material that is grey in colour that can have a few darker dots, overall its tone is pale and homogeneous.*

---

### MARMO RICOMPOSTO/*RECOMPOSED MARBLE*

Pietra ricostruita composta da polvere di alabastro e resina realizzata seguendo un processo produttivo artigianale. Ogni manufatto prodotto è completamente rifinito a mano e le irrilevanti imperfezioni che si possono riscontrare sono la testimonianza di un lavoro fatto a mano.

*A reconstructed stone composed of alabaster powder and resin created through an artisan production process. Each product made is completely hand-finished and the insignificant imperfections that may occur are evidence of the manual work involved.*

## VETRI/GLASS

Nobile e prezioso il vetro è un materiale di forte espressività, all'apparenza fragile ma in realtà resistente e in grado di trasmettere sensazioni di inaspettata e stupefacente leggerezza.

Tutti i nostri vetri subiscono il trattamento di tempra che riscalda il vetro ad altissime temperature e lo raffredda repentinamente. Il vetro temprato, in accordo alla normativa europea, assume così una conformazione interna che lo rende cinque volte più resistente del vetro normale e, in caso di rottura totale, si frantuma in minuscoli pezzi non taglienti. Per dare ai nostri vetri colorati opachi o lucidi il colore desiderato è stata messa a punto una vernice che mantiene inalterato il tono di colore applicato ed assicura un'aderenza eccellente sul vetro.

*Fine and precious, glass is a highly expressive material with a fragile appearance, but in reality it is tough and capable of conveying feelings of surprising, unexpected lightness. All our glass undergoes tempering treatment, whereby it is heated at high temperatures and cooled rapidly. In accordance with European regulations, tempered glass therefore takes on an internal conformation that makes it five times more resistant than normal glass and, in the event of total breakage, it is shattered into tiny, non-sharp pieces. To give our coloured opaque polished glasses the desired colour, a varnish has been perfected that keeps the colour tone applied unchanged and ensures an excellent adherence to the glass.*

### VETRO TRASPARENTE/TRANSPARENT

Vetro float chiaro temperato.

*Clear tempered float glass.*

---

### VETRO LACCATO OPACO/LACQUERED OPAQUE GLASS

Vetro float chiaro temperato con un trattamento di acidatura superficiale per realizzare un "effetto pesca" incredibilmente piacevole al tatto. Verniciatura sul lato inferiore con speciali vernici per garantire una perfetta aderenza al vetro.

*Clear tempered float glass with a surface etching treatment to create a "peach effect" that is incredibly pleasant to the touch. Painted on the lower side with special varnishes to guarantee a perfect adherence to the glass.*

## VETRI/GLASS

### VETRO LACCATO LUCIDO/*POLISHED LACQUERED GLASS*

Vetro float chiaro temperato. Verniciatura sul lato inferiore con speciali vernici per garantire una perfetta aderenza al vetro.

*Clear tempered float glass. Painted on the lower side with special varnishes to guarantee a perfect adherence to the glass.*

---

### SPECCHIO/*MIRROR*

Vetro float chiaro con deposito un sottile strato di argento ricoperto da una vernice protettiva.

*Clear float glass with a thin layer of silver applied, covered by a protective varnish.*

---

### VETRO SOFFIATO/*BLOWN GLASS*

Il procedimento per dare una forma al vetro è la soffiatura: libera o a stampo. La tecnica di soffiatura può essere variata utilizzando stampi di ferro, bronzo o legno bagnato. In queste forme viene soffiata la massa vitrea, ripetutamente scaldata, che si modella dilatandosi e sagomandosi. La soffiatura del vetro è un'arte che non ha età.

*The procedure for shaping glass is blowing: free or moulded. The blowing technique can be varied by using moulds made of iron, bronze or wet wood. Into these forms the heated glass mass is blown and shaped by expanding. Glassblowing is an ageless art.*

## METALLI/METALS

I metalli si trovano in natura come minerali nelle rocce e vengono estratti attraverso procedimenti di fusione o elettrolisi. Quando parliamo di metallo facciamo riferimento a lamiere e tubi di acciaio o alluminio sottoposti a trattamenti finali di finitura per garantire un'adeguata protezione superficiale ed ottenere effetti estetici che impreziosiscono con modalità distintive le varie collezioni.

*Metals are found in nature as minerals in rocks and are extracted through founding procedures or electrolysis. When we talk about metal we are referring to steel or aluminium plates and pipes that undergo finishing treatments to guarantee adequate surface protection and obtain aesthetic effects that embellish the various collections using distinctive methods.*

### ACCIAIO VERNICIATO A POLVERE POLIESTERE/STEEL PAINTED WITH POLYESTER POWDER

Acciaio sottoposto a verniciatura in forno industriale nella quale la fase finale di cottura avviene a temperature elevate (circa 170°). La verniciatura a polvere poliestere presenta eccellenti caratteristiche di resistenza ai raggi UV, ottime caratteristiche meccaniche, buona resistenza agli agenti chimici (detersivi, detergenti, olii, acidi leggeri, e alcali diluiti) ed agli agenti atmosferici.

*Steel undergoing painting in an industrial furnace in which the final firing phase happens at high temperatures (around 170°). The polyester powder paint has excellent characteristics of resistance to UV rays, excellent mechanical characteristics, good resistance to chemical agents (cleansers, detergents, oils, light acids and diluted alkali) and to atmospheric agents.*

---

### ACCIAIO CROMATO/CHROME-PLATED

Acciaio sottoposto ad un trattamento superficiale di cromatura galvanica per ottenere un particolare perfettamente lucido e riflettente mediante immersione del pezzo in una vasca contenente una soluzione elettrolitica di cromo trivalente "ecologico".

*Steel undergoing a galvanic chrome-plating surface treatment to obtain a perfectly polished and reflective finish by immersing the piece in a tank containing an "ecological" trivalent chromium electrolytic solution.*

## METALLI/METALS

### ACCIAIO INOX LUCIDO/POLISHED STAINLESS STEEL

Acciaio inossidabile particolarmente resistente alla corrosione sottoposto ad una serie di operazioni di levigatura con grane via via meno aggressive. Quando la superficie è perfettamente liscia, uniforme e priva di graffi con spazzole in cotone il pezzo viene lucidato a specchio.

*Stainless steel particularly resistant to corrosion undergoing a series of polishing operations with gradually less aggressive grits. When the surface is perfectly smooth, uniform and without scratches, the piece is mirror polished using cotton brushes.*

---

### ALLUMINIO VERNICIATO A POLVERE POLIESTERE/ALUMINIUM PAINTED WITH POLYESTER POWDER

Alluminio sottoposto a verniciatura in forno industriale nella quale la fase finale di cottura avviene a temperature elevate (circa 170°). La verniciatura a polvere poliestere presenta eccellenti caratteristiche di resistenza ai raggi UV, ottime caratteristiche meccaniche, buona resistenza agli agenti chimici (detersivi, detergenti, olii, acidi leggeri, e alcali diluiti) ed agli agenti atmosferici.

*Aluminium undergoing painting in an industrial furnace in which the final firing phase happens at high temperatures (around 170°). The polyester powder paint has excellent characteristics of resistance to UV rays, excellent mechanical characteristics, good resistance to chemical agents (cleansers, detergents, oils, light acids and diluted alkali) and to atmospheric agents.*

---

### ALLUMINIO ANODIZZATO/ANODISED ALUMINIUM

Alluminio sottoposto ad un processo elettrochimico di "anodizzazione" per ottenere esclusivi effetti cromatici tramite l'aggiunta di pigmenti colorati con una superficie morbida e vellutata particolarmente piacevole al tatto.

*Aluminium undergoing an electrochemical process of "anodisation" to obtain exclusive chromatic effects through the addition of coloured pigments with a soft, velvety surface that is particularly pleasant to the touch.*

## MATERIE PLASTICHE/*PLASTIC MATERIALS*

Il termine "plastica" deriva dalla parola greca "plastikos", che significa adatto per essere modellato riferendosi alla malleabilità o plasticità del materiale durante la produzione quindi può essere fuso, stampato o estruso in una varietà infinita di forme. La "plastica" è un materiale altamente versatile lasciandosi "modificare" in qualsiasi combinazione di proprietà per adattarsi alle molteplici esigenze estetiche o meccaniche.

*The term "plastic" derives from the Greek word "plastikos", which means suitable for moulding, referring to the malleability or plasticity of the material during production; therefore, it can be cast, pressed or extruded in an endless variety of forms. "Plastic" is a highly versatile material allowing itself to be "modified" into any combination of properties to suit multiple aesthetic or mechanical requirements.*

### POLIPROPILENE/*POLYPROPYLENE*

Polimero termoplastico (comunemente indicato come PP) caratterizzato da un elevato carico di rottura in particolare viene utilizzato nello stampaggio ad iniezione

*A thermoplastic polymer (commonly indicated as PP) characterised by a high tensile strength, it is used in particular in injection moulding.*

---

### POLIETILENE/*POLYETHYLENE*

Resina termoplastica (comunemente indicata come PE) la più semplice dei polimeri sintetici e la più comune fra le materie plastiche molto versatile ed economico in particolare viene utilizzato nello stampaggio rotazionale.

Polietilene verniciato opaco soft touch ottenuto grazie all'impiego di vernici acriliche opache all'acqua che conferiscono al prodotto una particolare resistenza all'usura, alla luce e agli agenti atmosferici oltre ad ottenere un aspetto estetico, e al tatto, morbido e "setoso" che si combina perfettamente con la proposta colore nei toni della pelle

*A thermoplastic resin (commonly indicated as PE), the simplest of the synthetic polymers and the most common among plastic materials; very versatile and inexpensive, it is used in particular in rotational moulding.*

*Soft touch matt varnished polyethylene thanks to the use of water-based matt acrylic paints that give the product a particular resistance to the use, to the light and to atmospheric agents as well as an aesthetic appearance, a soft and "silky" touch that combines perfectly with the new colors in human skin tones*

## MATERIE PLASTICHE/*PLASTIC MATERIALS*

### POLICARBONATO/*POLYCARBONATE*

Polimero termoplastico con una eccezionale qualità di trasparenza alla radiazione luminosa visibile e di resistenza all'impatto, in particolare viene utilizzato nello stampaggio ad iniezione.

*A thermoplastic polymer with an exceptional quality of transparency to visible light radiation and resistance to impact, it is used in particular in injection moulding.*

---

### SAN/*SAN*

Copolimero con buone proprietà meccaniche, elevata rigidità e di resistenza ai solventi, in particolare viene utilizzato nello stampaggio ad iniezione.

*A copolymer with good mechanical properties, high rigidity and resistance to solvents, it is used in particular in injection moulding.*

---

### ABS METALLIZZATO/*METALLIC ABS*

Polimero termoplastico (comunemente indicato come ABS) con caratteristiche meccaniche di resistenza all'impatto e durezza, in particolare viene utilizzato nello stampaggio ad iniezione o estrusione. La superficie in ABS viene "nobilitata" con un trattamento superficiale di metallizzazione ovvero la deposizione di un sottile film di metallo in condizione di vuoto per ottenere particolari aspetti estetici dall'aspetto brillante, riflettente e metallico in una svariata gamma di colorazioni.

*A thermoplastic polymer (commonly indicated as ABS) with mechanical characteristics of resistance to impact and toughness, it is used in particular in injection moulding or extrusion. The ABS surface is "ennobled" with a metallic surface treatment, namely by applying a thin film of metal under vacuum conditions to obtain particular aesthetic appearances, shiny, mirror and metallic, in a diverse range of colorations.*

## MATERIE PLASTICHE/*PLASTIC MATERIALS*

### POLIURETANO RIGIDO/*RIGID POLYURETHANE*

Polimero termoindurente, è il risultato della reazione chimica di due sostanze base il poliolo e l'isocianato che miscelate fra loro creano una schiuma che solidificata risulta una superficie compatta con un'elevata resistenza meccanica, viene utilizzato nello stampaggio "per colata".

*A thermosetting polymer, it is the result of the chemical reaction of two basic substances, polyol and isocyanate, which are mixed together, creating a foam that, when solidified, forms a compact surface with a high mechanical resistance; it is used in "cast" moulding.*

Composizione/*Composition*: 35% VI, 30% PC, 20% CO, 15% PL. Larghezza/*Width*: 140 cm. Peso/*Weight*: 840gr. Abrasione/*Abrasion*: 25.000 Martindale

### CAT. C - BARCELLONA

Composizione/*Composition*: 100% LI. Larghezza/*Width*: 138/140 cm. Peso/*Weight*: 680gr. Abrasione/*Abrasion*: 30.000 Martindale

### CAT. D - PRINCIPE

Composizione/*Composition*: 100% CO. Larghezza/*Width*: 140 cm. Peso/*Weight*: 594gr. Abrasione/*Abrasion*: 20.000 Martindale

### CAT. D - DUBAI

Composizione/*Composition*: 53% CO, 30% VI, 17% LI. Larghezza/*Width*: 140 cm.

### CAT. D - NAGOYA

Composizione/*Composition*: 28% WO, 26% PL, 24% PC, 18% CO, 4% PA. Larghezza/*Width*: 140 cm. Abrasione/*Abrasion*: 45.000 Martindale

## PELLI/LEATHERS

---

### CAT. P - NIAGARA

Pelle bovina ai sali di cromo. Pigmentata - Fiore Corretto - Tintura all'anilina passante in botte. Spessore 1.4 - 1.6 mm

Test di infiammabilità: EN 1021-1, EN 1021-2, BS 5852 Source 0, BS 5852 Source 1, Cal TB117, NFPA 260/UFAC\*

\* Test eseguiti periodicamente sui campioni di pellame secondo il piano di audit annuale. Il processo di produzione standard garantisce la conformità al requisito.

#### **Pulizia e manutenzione:**

Evitare la luce diretta del sole. Evitare l'esposizione a fonti di calore. Spolverare regolarmente la pelle con un panno morbido ed asciutto. Eventuali macchie si possono eliminare usando un panno inumidito con acqua e sapone neutro. Asciugare immediatamente dopo il trattamento. Non strofinare ma tamponare delicatamente dai bordi al centro della macchia.

*Chrome tanned bovine raw hides. Pigmented - Corrected Grain - Aniline through dyed. Thickness 1.4 - 1.6 mm*

*Fammability tests: EN 1021-1, EN 1021-2, BS 5852 Source 0, BS 5852 Source 1, Cal TB117, NFPA 260/UFAC\**

*\* Tests are performed periodically on the leather samples in accordance with the annual audit plan. The standardized production process ensures compliance with the requirement.*

#### **Cleaning and maintenance:**

*Avoid placing leather in direct sun. Keep the leather away from direct heat. Dust regularly with a soft and dry cloth. Spots can be cleaned with a lightly damp cloth and mild soap. Dry immediately after the treatment. Do not rub. Use a light circular motion working toward the center of the stain.*

---

### CAT. O - RIO

Pelle bovina a mezzo fiore a grana naturale. Concia al cromo. Tintura passante; rifinitura con resine e pigmenti. Articolo con mano morbida, tatto ceroso e aspetto semiopaco. Spessore finito 0.9 - 1.1 mm

Test di infiammabilità: BS 55852:1979, BS EN 1021-1-2-2006

#### **Pulizia e manutenzione:**

Evitare la luce diretta del sole. Evitare l'esposizione a fonti di calore. Spolverare regolarmente la pelle con un panno morbido ed asciutto. Eventuali macchie si possono eliminare usando un panno inumidito con acqua e sapone neutro. Asciugare immediatamente dopo il trattamento. Non strofinare ma tamponare delicatamente dai bordi al centro della macchia.

*Bovine of European origin, lightly buffed natural grain. Through dyed; finishing with resins and pigments. Article with a pigmented and protective coat, with a soft, waxy feel and semi-matt appearance. Finished thickness 0.9 - 1.1 mm*

*Fammability tests: BS 55852:1979, BS EN 1021-1-2-2006*

#### **Cleaning and maintenance:**

*Avoid placing leather in direct sun. Keep the leather away from direct heat. Dust regularly with a soft and dry cloth. Spots can be cleaned with a lightly damp cloth and mild soap. Dry immediately after the treatment. Do not rub. Use a light circular motion working toward the center of the stain.*

## PELLI/LEATHERS

---

### CAT. ZC - CHURCHILL

Pelle bovina ai sali di cromo. Anilina - Pieno fiore - Tintura all'anilina passante in botte. Spessore 1.0 - 1.2 mm  
Test di infiammabilità: EN 1021-1, EN 1021-2, BS 5852 Source 0, BS 5852 Source 1, Cal TB117, NFPA 260/UFAC\*

\* Test eseguiti periodicamente sui campioni di pellame secondo il piano di audit annuale. Il processo di produzione standard garantisce la conformità al requisito.

#### **Pulizia e manutenzione:**

Evitare la luce diretta del sole. Evitare l'esposizione a fonti di calore. Spolverare regolarmente la pelle con un panno morbido ed asciutto. Eventuali macchie si possono eliminare usando un panno inumidito con acqua e sapone neutro. Asciugare immediatamente dopo il trattamento. Non strofinare ma tamponare delicatamente dai bordi al centro della macchia.

*Chrome tanned bovine raw hides. Aniline - Full Grain - Through dyeing aniline. Thickness 1.0 - 1.2 mm*

*Test di infiammabilità: EN 1021-1, EN 1021-2, BS 5852 Source 0, BS 5852 Source 1, Cal TB117, NFPA 260/UFAC\**

*\* Tests are performed periodically on the leather samples in accordance with the annual audit plan. The standardized production process ensures compliance with the requirement.*

#### **Cleaning and maintenance:**

*Avoid placing leather in direct sun. Keep the leather away from direct heat. Dust regularly with a soft and dry cloth. Spots can be cleaned with a lightly damp cloth and mild soap. Dry immediately after the treatment. Do not rub. Use a light circular motion working toward the center of the stain.*

---

### CAT. ZME - AMUR

Pelle bovina di provenienza europea, ad effetto invecchiato. Questo articolo di alta qualità è ottenuto partendo da una pelle nubuck, che viene leggermente ugualizzato con anilina, ed abrasivato a mano per dare un effetto invecchiato. La mano è molto calda e setosa. Spessore 0.9 - 1.1 mm  
Test di infiammabilità: BS 5852:1979, BS EN 1021-1-2-2006

#### **Pulizia e manutenzione:**

Evitare la luce diretta del sole. Evitare l'esposizione a fonti di calore. Spolverare regolarmente la pelle con un panno morbido ed asciutto. Eventuali macchie si possono eliminare usando un panno inumidito con acqua e sapone neutro. Asciugare immediatamente dopo il trattamento. Non strofinare ma tamponare delicatamente dai bordi al centro della macchia.

*Bovine of European origin, lightly buffed natural grain. Through dyed; finishing with resins and pigments. Article with a pigmented and protective coat, with a soft, waxy feel and semi-matt appearance. Finished thickness 0.9 - 1.1 mm*

*Flammability tests: BS 5852:1979, BS EN 1021-1-2-2006*

#### **Cleaning and maintenance:**

*Avoid placing leather in direct sun. Keep the leather away from direct heat. Dust regularly with a soft and dry cloth. Spots can be cleaned with a lightly damp cloth and mild soap. Dry immediately after the treatment. Do not rub. Use a light circular motion working toward the center of the stain.*

## PELLI/LEATHERS

---

### CAT. ZS - SACRAMENTO

Pelle bovina 100% di origine europea - Anilina pieno fiore. Spessore 1.4 - 1.6 mm  
I colori sono sensibili all'esposizione ai raggi UV.

**Pulizia e manutenzione:**

Evitare la luce diretta del sole. Evitare l'esposizione a fonti di calore. Spolverare regolarmente la pelle con un panno morbido ed asciutto. Eventuali macchie si possono eliminare usando un panno inumidito con acqua e sapone neutro. Asciugare immediatamente dopo il trattamento. Non strofinare ma tamponare delicatamente dai bordi al centro della macchia.

*Cow skins, 100% european origin. Aniline full grain. Thickness 1.4 - 1.6 mm  
The colors are sensitive to exposure to UV.*

**Cleaning and maintenance:**

*Avoid placing leather in direct sun. Keep the leather away from direct heat. Dust regularly with a soft and dry cloth. Spots can be cleaned with a lightly damp cloth and mild soap. Dry immediately after the treatment. Do not rub. Use a light circular motion working toward the center of the stain.*

---

### CAT. ZA - PURUS

Pelle bovina di provenienza europea. Concia al cromo - Tintura all'anilina. - Semi anilina - Pieno fiore. Spessore 1.0 - 1.2 mm  
Test di infiammabilità: BS 5852 1-2, EN 1021 1-2, TB 117-2013

**Pulizia e manutenzione:**

Evitare la luce diretta del sole. Evitare l'esposizione a fonti di calore. Spolverare regolarmente la pelle con un panno morbido ed asciutto. Eventuali macchie si possono eliminare usando un panno inumidito con acqua e sapone neutro. Asciugare immediatamente dopo il trattamento. Non strofinare ma tamponare delicatamente dai bordi al centro della macchia.

*Bovine of European origin. Chrome tanning - Aniline dyed - Semi aniline - Full grain. Thickness 1.0 - 1.2 mm  
Flammability tests: BS 5852 1-2, EN 1021 1-2, TB 117-2013*

**Cleaning and maintenance:**

*Avoid placing leather in direct sun. Keep the leather away from direct heat. Dust regularly with a soft and dry cloth. Spots can be cleaned with a lightly damp cloth and mild soap. Dry immediately after the treatment. Do not rub. Use a light circular motion working toward the center of the stain.*
